Allowable Subject Matter

Claims 1-10, 12-14, and 18 are allowed for the same reasons set forth in application number 10/753,636: While Russell shows a method of 3D printing with a redundancy system in place, neither this reference taken alone or in combination with the prior art of record disclose the feature of immediate redundancy without data transfer as noted in independent claim 1. It is this lack of data transfer in the redundancy system, in combination with the remaining elements and features of the invention, that the applicant's invention defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
